

## Connecting Classrooms

Mrs Priscilla Yoyo has been at St Andrew's School this week, visiting from our new partner school, Nqaba Primary in Fort Beaufort in the Eastern Cape Province of South Africa. Children have been interested to learn about wildlife, weather and food in South Africa and begin to learn some friendly greetings.

Together we are working towards one of the UN's Sustainable Development Goals, Zero Hunger. Children in St Andrew's already recognise they have a responsibility to help those in need but are now being challenged to think of sustainable ways that help people in developing countries to provide food for themselves. They have been learning about how waste food can be used to help grow more food by turning it into compost and now have the challenge to try this for themselves at home.
